Dmitry Teplov

Software Developer

hr@itplk.ru | [website](#) | [github(tplk)](#)

Summary

Hard-working and enthusiastic developer with solid written and verbal communication skills who is able to work independently or on a collaborative team. I am quite meticulous about everything I do and am highly motivated by interesting and complex problems.

Actively visit IT meetups and conferences, participate in open-source projects, try different programming languages and technologies which helps me to keep an open mind and have a better understanding of different concepts and practices.

Skills

Programming languages

- JavaScript (ES5, ES6/ES2015, ES7/ES2016)
- TypeScript
- SQL (MySQL, MS SQL/T-SQL)
- Bash
- HTML5
- CSS3

Technologies

- Git
- SCSS
- RxJS

- Angular
- NgRx
- React
- Redux
- Vue.js
- Nuxt.js
- SSR
- Node.js
- jQuery
- Gulp
- Webpack
- Gitlab CI
- Jenkins
- Docker
- NGINX
- Shell scripting (bash)
- Batch scripting (cmd)

Databases

- MySQL
- MS SQL
- MongoDB

Platforms

- Windows
- Linux (CentOS, ArchLinux, Ubuntu)

Team work

- Jira
- GitHub
- Gitlab

- Azure DevOps

Other skills

- Software & database designing
- Building RESTful web services
- Developing complex and performant web applications
- Implementing responsive & accessible UI
- Setting up Continuous Integration/Delivery
- Every day tasks automation
- Agile/Scrum
- Decomposing user stories into scoped tasks
- Planning tasks' implementations
- Performing task estimations
- Researching and choosing technologies based on techinical requirements and limitations
- Code review

Languages

- Russian (native)
- English (upper-intermediate)

Professional experience

Yumasoft (Feb 2017 — Present, *2 years 2 months*)

Position: Frontend Developer

Technologies

HTML, CSS/SCSS, JavaScript/TypeScript, WebSocket, Service Workers, Angular(2/4/5/6/7), RxJS, NgRx, React, Vue.js, Nuxt.js, Webpack, Node.js, Golang, C#, .NET, Docker, NGINX, Karma, Jasmine, Protractor
